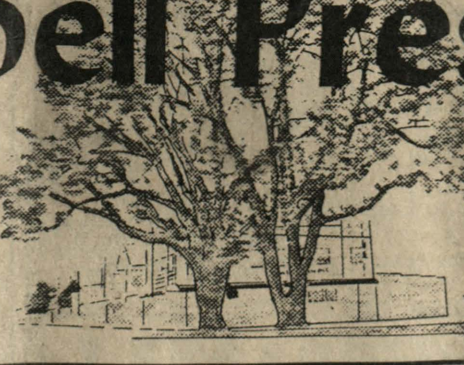
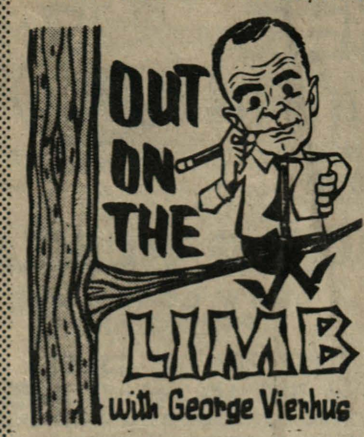
Since 1895

Vol. 79 No. 2 Wednesday, January 13, 1971 10¢

378-9136 35 Dillon Avenue, Campbell, California





THIS IS THE TIME OF year that many of us start collecting and computing the miscellaneous tabs and notes that have accumulated during the past year as preparation for the annual day of reckoning.

We are referring, of course, to the steps necessary in the compilation of the information needed for that production in which almost all citizens have a part to play, the income tax.

We find it all sort of depressing in a dollar sort of way.

Although the bills that have been paid during the year form a huge pile, there always seems to be another stack that appears almost always to equal it, made up of unpaid bills.

Trying to come out ahead in such a situation may offer a challenge. Unfortunately, we always seem to find ourself on the short end.

It is all quite frustrating.

No matter how much we shuffle the stacks, it doesn't seem to make any difference to our $$ status.

And there is always the income tax in the offing.

The trouble is the income tax won't stay in the offing.

The dictionary defines "offing" as "at a distance but within sight."

See what we mean?

-0-

ONE OF OUR CREDITors recently reminded our office in a curt but courteous manner that there seemed to be a need to correct our books as far as their particular account was concerned.

On the bottom of that firm's statement was this note: "Please remit your checks are short."

At least they indicated they had been getting checks from us... That's a step in the right direction.

And there are times when short ones are better than none at all.

We know.

We have some accounts that could stand some sort of check just once in a while. Short, long or medium.

Incidentally, the note which appeared on the statement we referred to was in red ink.

And it was made with a rubber stamp.

Things seem to be short all over.

-0-

A NEW SLATE OF OFFIcers has been selected by the Chamber of Commerce for the new year, headed by Norm Paul, as president.

The new directors took office last Thursday and then proceeded to elect their officers... Norm, president; Al LaPlante, first vice-president; Holly Vollenweider, second vice-president and Jim Schafer treasurer.

We remarked at the directors' meeting that we were glad that the election had turned out the way it did.

You see in The Press the day before had appeared the mugs of the new CofC officers along with the outgoing president, Bob Bullard.

If there had been a "palace revolt" and the slate of nominated officers had not been affirmed or confirmed by the directors, The Press could have been out on the limb. Sort of.

On the other hand, if the slate of officers had not been approved, that would have meant that there was dissension among the directors which would be detrimental to the overall community objectives.

It seems to us that we have enough of that kind of stuff already in a couple of other official bodies in the community that we can name.

-0-

ONE OF THE FIRST PROjects that is being undertaken by the CofC this year is the spearheading of a community-wide fund drive for the con-

FOR BREACH OF CONTRACT

Royer files suit against school district

Neal Royer, who was demoted as superintendent of the Campbell Union School District on Oct. 8, 1970 by a 3-2 vote of the board of trustees, this week filed suit in the Superior Court against the trustees of the school district for breach of contract.

In the complaint filed by his attorney, Austin Warburton, Royer charges that his demotion was entirely without justification and that the district board has failed to explain the action, although repeatedly requested to by him.

The suit requests the court to specify that Royer is still superintendent based on the contract that is still in effect.

Royer, who has been with the school district since 1948, and had served as teacher, vice-principal, principal, assistant superintendent before succeeding Bill Henley as superintendent in 1964. He was given a four-year contract at that time.

In Dec. 1968, the board of trustees renewed Royer's contract for a four-year period extending it to June 30, 1973. It is this contract, which has 2½ years remaining, that Royer maintains has been breached by the demotion action of the board.

On Oct. 8, Dr. Richard MacQuiddy, Ralph Steinberg and Mrs. Eleanor Graham-Armstrong voted to demote Royer from superintendent to principal of Forest Hill School. Mrs. Judy Ruscigno and Jim Gilliland voted against the demotion.

NEAL ROYER

Jim D'Avis was appointed acting superintendent and Fred Peterson, who had been principal at Forest Hill, was moved to the assistant superintendent slot.

The demotion of Royer, plus the contents of the report filed by the Citizens Advisory Finance Committee at about the same time, provided the basis for a recall movement against Mrs. Graham-Armstrong and Steinberg.

Royer issued the following statement relative to the legal action he has taken:

"It has become necessary for me to initiate legal action against the Campbell Union School District Board of Trustees, an employer of mine for more than twenty-two years, because three of the board members have repeatedly refused to provide me with written charges of my demotion of last October 8.

"My request for any charges they may have has been made in writing and the written request was followed by a meeting in executive session with the board members, and I have been given no documented charges to date.

"Perhaps legal counsel for the three board members and my attorney can sift through the many rumors, implied accusations, and available data from all sources so as to isolate the facts of this case and work out an agreement which will be equitable to the district and to me. I feel that further attempts on my part to communicate with a majority of the board members is useless at this time.

"It is my hope that this legal action will bring about a speedy settlement to district problems which will result in the restoration of harmony.

"Employees and taxpayers alike deserve to know the truth so that the vital program of education can be continued in our community without further disruption."

AS CHARGES FLY

Divided board meets Thursday

Charges and counter-charges affecting the beleagured Campbell Union (elementary) School District are again expected to be aired when the board of trustees, after a four-week "recess" holds the first meeting of the new year this Thursday, Jan. 14.

The meeting scheduled for 7 p.m. in the district administration office may be moved to Castlemont School on Payne Ave. between Central and Winchester, if the audience cannot be accomodated in the district office.

As has been the case for the past several months, the communication portion of the agenda is expected to create considerable interest as the pro and con letters relating to the district's problems are listed to read.

At least five of the eight letters that are on the published agenda of the meeting relate to the current district hassle, stemming from the report of the Citizens Advisory Committee and the demotion of Neal Royer, by a 3-2 vote, of the board in October.

Gordon Abbott, who served as vice-chairman of the Citizens Advisory Finance Committee, has a letter on file and is also on the agenda under "old business" to review the committee's report based on the action of the board concerning the report on Dec. 3, 1970.

A letter from Dr. Robert L. King, who also served on citizens group, has been submitted questioning why the audit for the district was not filed by Dec. 31 as required. In his letter Dr. King places the responsibility on Dr. Richard MacQuiddy, board president, for this laxity.

A status report could also be forthcoming at Thursday's board meeting on the request that has been made to Evelle Younger, new state attorney

(Continued on Page 2)

ESTIMATED TO COST $156,000

Civic center street pattern gets Council approval

Streets adjacent to the civic center complex are to be improved at an approximate cost of $156,000, according to action taken by the City Council on Monday night.

The engineering staff of the city was authorized on Monday to proceed with the civic center street pattern which had been presented to members of the Downtown Redevelopment Committee, headed by John Faber, and members of the Planning Commission at a study session held on Jan. 5. It is planned to have the improvements completed by the time the new city hall is completed in May.

According to the plan, as explained by City Manager Bob Stephens and Bill Wren, public works director, Central Ave., First and Grant streets would be involved in the project as well as the construction of the new loop street between Central and First adjacent to the city hall.

According to Wren, no major improvement is planned for Central Ave., but the other streets involved would be reconstructed, or constructed as in the case of the loop.

Wren submitted that the cost for Central was estimated at $12,000 and the cost of the loop would be $28,000. The remainder of the estimated $156,000 would be used on First and Grant.

Stephens explained that funds for the street project would come from gasoline tax income and minor street improvement bond money. He added that it was possible that in the improvement of First St. property owners might participate through an improvement district but that the tab for the other improvements would be picked up entirely by the city.

Six try for city attorney

Six candidates are still "in the race" for city attorney of the City of Campbell to succeed City Attorney Joe Bonacina, this city's first and only city attorney, according to City Manager Bob Stephens. The Council has already eliminated six of the applicants for the position.

Bonacina has submitted his resignation but has agreed to stay on with the city until his successor is named. He also is assisting the City Council in the "screening" procedures.

The next step in the elimination contest will be the appearance of the applicants before a special board of examiners composed of three city attorneys, Ferdinand Palla, San Jose; Ed Moore, Santa Clara and Rodney Atchison, Santa Cruz. Bonacina will also sit on the board.

The City Council hopes to make the appointment either by the end of January or early in February.

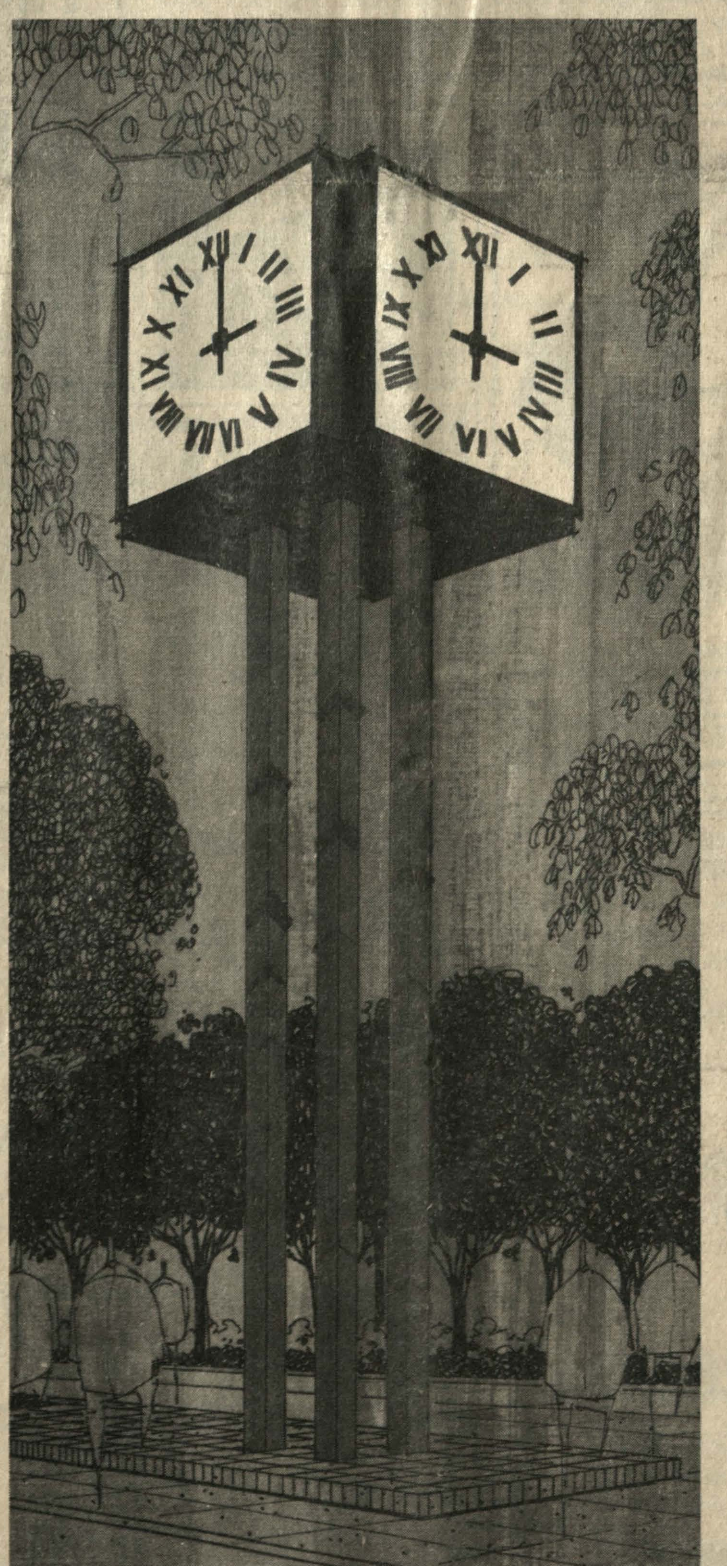
Merger study

City staff personnel on Monday night were directed on a motion by Councilman Ralph Doetsch, and approved by his fellow councilmen to conduct a study, in cooperation with the county, to determine the advantages, if any, of a possible merger of the Campbell Fire Department with the county's central fire district.

Doetsch said that Los Gatos, during the past year, had merged with the central fire district and the study might show whether that had been a satisfactory arrangement for that city resulting in a savings to the taxpayers.



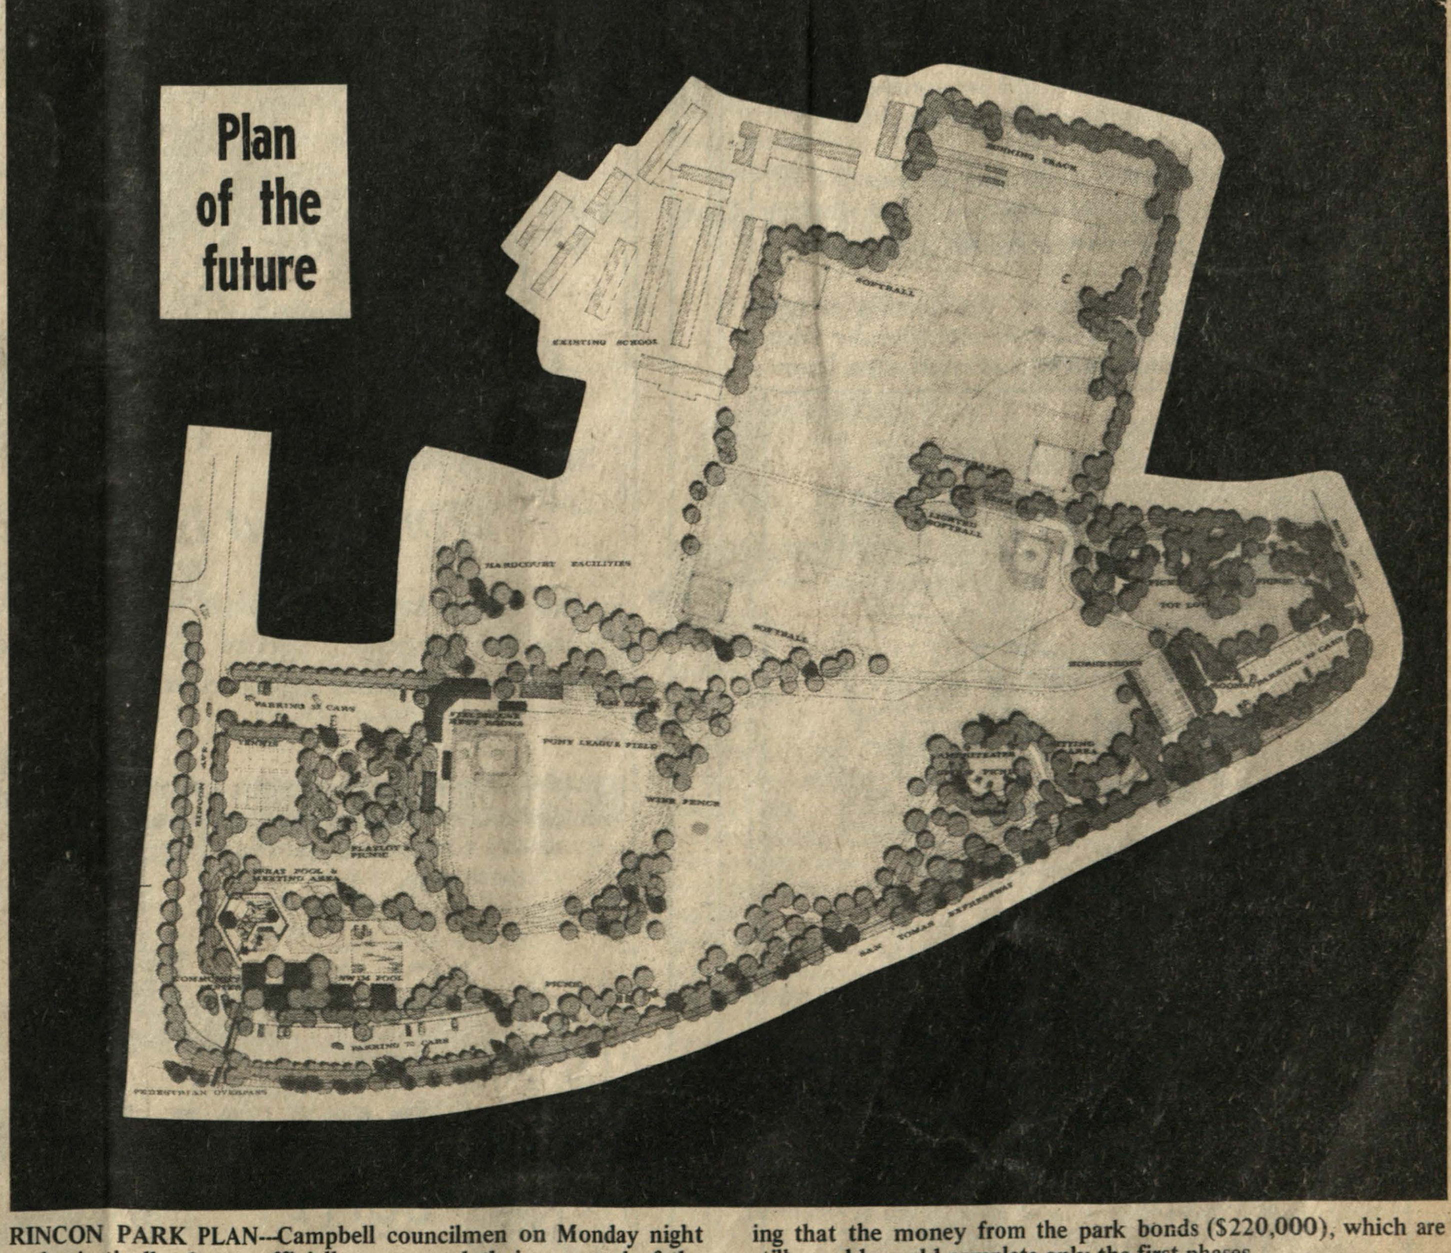
Clock tower support

A ringing endorsement was given the Campbell Chamber of Commerce by the City Council Monday for the CofC's offer to spearhead the community-wide drive to raise approximately $5000 to construct a clock tower at the new city hall.

The clock tower (pictured above) was part of the original plans for the civic center complex but was eliminated by the Council in the interest of economy.

Bob Telleson, a director of the Chamber of Commerce, told the Council that his organization felt that the clock tower would be an attractive feature to the city hall and hoped to interest various civic groups and individuals in the project.

The Council enthusiastically approved the request and Mayor Dean Chamberlin commended the Chamber of Commerce for this show of community spirit. He said that the City Council was extremely appreciative of the spearheading offer by the CofC. He added that he was confident that other civic groups would cooperate with the Chamber in the project.



RINCON PARK PLAN--Campbell councilmen on Monday night enthusiastically, but unofficially, expressed their approval of the Rincon Park master plan (pictured above) which had been drafted by Kenneth Arutunian, landscape architect and had received the prior approval of the Parks and Recreation Commission.

The plan was referred to the Planning Commission for that body's recommendation. Hank Cary, chairman of the park subcommittee of the P&R Commission described the project, explaining that the money from the park bonds ($220,000), which are still unsold, could complete only the first phases.

Present also were Mrs. Edith Morley, P&R chairman, and Arutunian.

Cary emphasized that it was the desire to involve various civic groups in the ultimate development of the park and the master plan would provide a guideline for this community participation.

Editorial

Long range goals

We have been quite impressed with a report recently compiled by City Manager Bob Stephens and submitted to the City Council entitled "Long Range Goals for the City of Campbell".

The report is more or less a supplement to the "goals for 1971" that the city manager has listed, as well as a listing of the accomplishments made by the City during 1970.

We thought the long range goals report tells the story very well of what a city like Campbell should have as its overall objectives.

So we are publishing it in its entirety:

LONG RANGE GOALS FOR THE
CITY OF CAMPBELL
(Submitted by Bob Stephens,
City Manager, Campbell)

A city working for a traffic circulation system which will provide ease of access in and out of the City; well integrated with the state freeway and county expressway system; yet designed to allow the minimum of commuter traffic to pass through the residential areas.

A city with well maintained tree-lined streets; a synchronized signalization system, safe pedestrian walkways and crosswalks; and traffic laws strictly enforced.

A city which has earned a reputation of actively cooperating with other governmental agencies in joint programs which are in the best interests of the community's youth, adults, and senior citizens.

A city recognized by the private sector as having fair, consistent and reasonable zoning, building, and offsite requirements and fees.

A city determined to improve its physical image by working with voluntary financial and manpower support from the public agencies, civic organizations, and private enterprise.

A city identified as the Commercial and Light Industrial Center of the West Santa Clara Valley progressively improving on the quality of these non-residential types of uses.

A city with one of the permanent campuses of the West Valley College District.

A city which involves its citizens to the maximum, thereby insuring responsive municipal home rule government.

A city which provides the highest levels of service to its citizens within its ability to pay for these services.

A city which plans for its people with the goal of exerting some influence on inevitable changes of the City's environment so that the changes will meet the desires of its citizens.

A city which has earned the respect and confidence of its citizens by its performance, results, and accurate reporting.

A city which establishes short and long term goals and then proceeds to implement the plans, both physical and financial, which are required to meet them.

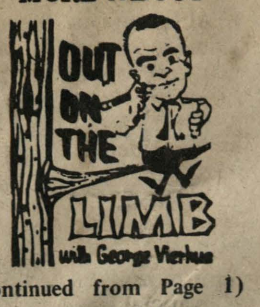
A city which encourages the active participation of its young people and senior citizens through a wide variety of programs, facilities, and involvement in local government.

A city which is sensitive and responsive to the housing needs of all economic levels of its citizens.

A city which provides to its paid personnel a fair and equitable pay and benefit program, good working conditions, and a progressive personnel program.

A city which seeks a balanced community of residential, commercial, and industrial uses thereby insuring a balanced economy and level property tax base.

MORE ABOUT



(Continued from Page 1)

struction of the clock tower at the new city hall.

The clock tower, a separate free-standing structure, was part of the original plan for the new city hall.

However, in order to keep the costs within the city's budget, the tower was reluctantly eliminated by the City Council in the interest of economy.

However, all agreed that it would be an attractive feature and Bill Hedley, the architect for the civic center complex, prepared plans for the clock tower.

Bill expressed the hope that community organizations might undertake raising the $5000 needed for the project as a civic center venture.

And so the CofC, by the direction of its board of directors, has become the spearheader for the first civic project for the community in 1971...a clock tower for the city hall.

That could be called good timing.

-0-

HEADING THE CofC tower committee is Bob Telleson, operator of United Rent-All in Campbell and a newly-elected director of the CofC.

At the CofC directors' meeting, Bob outlined some of the fund-raising plans which include sponsoring a series of movies at a local theater with part of the proceeds from the sale of tickets going into the clock tower fund.

Bob was enthusiastic as to what this would mean $-wise and explained that the local theater would cooperate to the fullest extent and that similar promotions in the past had been highly successful financially.

The only trouble was that Bob reported that it was the Winchester Theater that was cooperating in the civic project.

Norm Paul, who had just taken over the gavel as CofC prexy, almost fell off his chair.

You see, Norm is co-owner of the Plaza Theaters (in the Campbell Plaza Shopping Center on WINCHESTER BLVD.) and it was the Plaza Theaters that are involved in this cooperative community venture.

You can imagine the roar that went up from the directors when Bob mixed his theaters.

But Telleson was not dismayed by his minor goof.

"I refuse to be embarrassed," he told his fellow directors.

He went right on with his pitch and got the official endorsement of the board.

We are pretty sure that the minutes of the meeting will reflect the proper theater.

-0-

CURRENT ECOLOGICAL note--Carl Winther, ad manager of The Press reported that he recently went by an area on Pollard Road on which a new development is planned.

According to the sign on the property, the development will be called "Los Gatos Woods".

Carl noted that the first step in the development of "Los Gatos Woods" had apparently been taken.

All the trees on the property have been removed.

-0-

A NEW WRINKLE IN solving a domestic transportation crisis was recently unveiled by Don Hebard.

Don was faced with the problem of getting his daughter Pat, and her dog back to UC at Santa Barbara after the Christmas vacation. Because of various circumstances, he had about decided that the only recourse was for him to drive her back to school and return to Campbell the same day.

He was not looking forward to that long round-trip trek with any degree of enthusiasm.

By a brilliant (?) stroke of genius he solved his dilemma.

He bought a car for Pat.

But it was not just any car.

Don scanned the classifieds and found one in what might be termed the low-low cost field...(considerably less than $100).

Hebard, who is somewhat familiar with the mechanical intricacies of vehicles then added the needed vital parts, checked out the gallopy to his satisfaction and, then sent Pat and her dog on their way to Santa Barbara.

Don and Grace sat by the phone.

Pat had been given "checkpoints" to call home. (King City was the first and she was right on time.)

Her call from Santa Barbara was also right on schedule with the car still purring like a kitten.

Don is still beaming at his master stroke of ingenuity.

Well, he did save himself a trip to Santa Barbara.

Commission gets apartment plans

Plans for two proposed apartment complexes, on which action was deferred at the last Planning Commission meeting, are scheduled to be on the agenda again next Monday night, Jan. 18.

Yolles Development Co. is proposing a 142-unit complex on the north side of W. Hamilton between Darryl and Marathon Drives.

At the last meeting of the Commission, residents within the city limits of San Jose but bordering on the proposed project, vigorously objected to the proposal.

Since that meeting, however, the developer has met with the residences to see if some of the differences could be worked out. The main bone of contention was the type of fence that separated the complex from the single-family home tract.

The other complex that is before the Commission is located just west of Marathon but is in the same general area. The matter was continued at the last meeting before any discussion had taken place. M. H. Podell is requesting approval of 116-units in this instance.

Other matters before the Commission next Monday include plans for warehouse-shops at 877 E. Hamilton and 625 McGlincey and for a professional office at 1610 La Pradera. Approval is also being asked for a "7-11" store at 262 Sunnyoaks.

MORE ABOUT

Divided board

(Continued from Page 1)

general, to investigate the problems that have erupted in the district.

Mrs. Judy Ruscigno and Jim Gilliland, members of the two-vote minority faction on the 3-2 split board, have asked the attorney general to investigate 14 different areas.

These include the $935,000 error in budgeting; the handling of $1,215,000 in bond proceeds; the $1,700,000 tax revenue advance granted the district in 1970; bidding procedures; failure to have a complete financial audit; possible election code violations; possible Brown act violations by the board majority; possible illegal meeting; possible violation of the Winton Act; possible use of school district personnel for other than school business; possible intimidation of school district personnel; the failure of the board majority to permit private citizens to resign from board appointed committees and the board's handling of the postal inspection under the direction of its designee, Ralph Steinberg.

Mrs. Ruscigno and Gilliland have also challenged the board majority to present written charges for their action in dismissing Royer on Oct. 8.

Prospect lists straight 'A's

According to Verdun Romer, principal of Prospect High School, the following students had straight "A" grades for the first quarter:

Seniors: Sheryl Alexander, Patricia Beale, Cynthia Bettencourt, Lyn Davy, Mark Eskeldson, Colette Fantozzi, Susan Fitchett, Joseph Kovar, Jeri McLellen, and Alicia Raphael.

Juniors: Devine Derham, Kathy Drechsler, Michelle Ellis, Tom Gilovich, Ellen King, Martin Kopp, Leonard Lindsay, Carol Monlux, Diane Shoaf, Sally Stockard, James Wallis, Dirk Weiss, and Priscilla Worthington.

Sophomores: Dustin Baker, Cynthia Flanagan, Janis Harada, Scott Hill, Linda Peters, Tanya Styblo, and David Thompson.

Freshmen: Deann Albright, Robert Brown, Debbie Bunda, Laurie Crist, Debbie Emery, Maria Gloria, Suzanne Glover, Mark Goldberg, Joshua Koestenbaum, Rebecca McQueen, Pamela Otsuka, Sharon Sneed, Janice Vetrano, and Barbara Lee.

VISITS SINGAPORE

Navy Fireman Dennis J. Ireton of 3932 Via Salice, Campbell, spent a five-day Christmas visit in Singapore.

He is serving aboard the amphibious transport dock USS Cleveland, a component of Amphibious Ready Group Alfa of the Seventh Fleet in the Western Pacific.

Letters to the Editor

MULTIPLE SCLEROSIS

Dear Sir:

This letter is in regard to my disease Multiple Sclerosis. There is no physical pain connected with the disease but the terrible pain of frustration in trying to walk, to see, to read or just to keep housework up is sometimes unbearable.

Dr. Jonas Salk is working on a cure for the disease and feels he is so close to the answer. I feel that he needs all the help he can get and so in my small way I would like to help by appealing to you and to your readers for contributions to buy a chimpanzee for his experimentation.

Dr. Salk will find a cure for Multiple Sclerosis just as he did for Polio and with him lies my faith.

Any persons wishing to make a donation to the Multiple Sclerosis Research Fund please label it "Chimpanzee Fund" and send it to: 1060 Willow Street, #3, San Jose, Calif. 95125.

Thank you for your attention of this matter. Your assistance is greatly appreciated.

Sincerely,
Donna Damerell
M.S. Patient

Dear Sir:

Mrs. Damerell was not able to grip a pen to write this letter to you, and I feel it is just a little something that I can do for her that gives her and other patients reason for continued hope.

Thank you for helping her.

Gloria Hood-President
Women's Division M.S.
Santa Clara County.

RECALL REBUTTAL

Mr. Vierhus,

I am submitting the attached items prepared for publication by the Citizens Against Recall Election Committee.

It is a rebuttal to the "Facts and Issues" pamphlet currently being used by petition carriers in the CUSD trustee recall election attempt.

All factual information contained in our rebuttal has been obtained from officials at the CUSD District office, county counsel, the Registrar of Voters and from official CUSD Board meeting minutes.

Sincerely,
Joan D. Franks
Co-chairman,
Publicity CARE.
1108 Greenbriar, S.J.

FACTS and ISSUES

Citizens Against Recall Election Committee has issued the following rebuttal of the supportive pamphlet, "Facts and Issues", which is being used by the Recall Committee to obtain signatures on the petitions being circulated in the Campbell Union School District.

In the interest of brevity, the rebuttal contains only the more important issues and makes no mention of statements reflecting opinions or of items which are not relevant to recall.

FACTS

4.A. Mr. Neal Royer was reassigned to principal, without charges or hearings.

Several executive sessions (with all board members present) concerning this matter were held prior to the reassignment of Mr. Royer. He was present at one of these sessions held earlier in the week of his re-assignment.

Calif. Gov't. code No. 54.-950 prohibits Board Members from making public the charges or reasons, but does allow Mr. Royer to release the Board from this confidence or to make the information public himself. This has not been done as of January 8, 1971, three months after re-assignment.

5.A. Citizens Advisory Finance Committee report recommended the dismissal of the Business Manager on Oct. 1, 1970.

This was an oral recommendation and no factual reasons have been given to warrant such action. The Business Manager is a classified employee and under the Education Code (13740-55) cannot be discharged without cause, presentation of charges, etc.

5.B. The report revealed a $953,000 error in estimated income last year – Business Manager's responsibility.

Figure shown is correct but contrary to implication, District ended the year "in the black" with year-end cash balance of $40,000. Our concern is education, not financial profit.

5.C. C.A.F.C. report suggests District is not getting the lowest possible costs due to current bid procedure – Business Manager's responsibility.

Again, no factual support of this statement. District bidding procedures comply with Education Code No. 19051 requiring any job put to bid must be awarded to lowest bidder meeting all job specifications. When necessary, County Counsel has been consulted.

PETITION ISSUES

1. Created a climate of turmoil by voting to permit administrator's duties to be put under the responsibility of the Board.

The basis for this statement is unknown. At Board meetings, staff personnel may be called upon to clarify or amplify their reports which have been submitted to the Board through the Superintendent's office. The Superintendent is the administrative officer responsible for submitting ALL items requiring Board notice and/or action.

3. Failed to heed warnings with regard to financial matters of the District.

In September, 1969, the Business Manager advised the Board, in writing, of impending financial pressure on the District. The superintendent recommended an outside consultant to analyze the District's finances.

A study was conducted by Dr. H. Thomas James, Stanford University Dean of Education and a nationally known expert on school finances. His report of October, 1969 concluded District income to be conservatively estimated and also recommended a 4.7% increase in salary schedule.

The Board increased salaries in accord with this recommendation (October 28, 1969).

TAXES AND FINANCES

1. A $1,690,000 budget increase is being considered by the Board.

2. This would result in approximately $72 per year increase on average home.

This is C.A.F.C. ESTIMATE of ALL requests received for maintenance purposes and salary increases when preliminary budget was being made up. The Board is not and has not considered any such increase.

3. The $300,000 salary increase voted for in October, 1969 was not budgeted. Because of this the District was in financial jeopardy with respect to all salaries.

District practice (as with many neighboring districts) is to use monies from undistributed reserve because this allows a degree of flexibility in the matter of negotiations.

This practice does NOT place the District in "financial jeopardy".

4. Teachers were granted this year a 6.6% salary increase, and are asking for up to 13.4% additional increase for which funds are not available.

40% of the teachers received NO increase this year – the remainder received an automatic increase due to advancement within their salary schedule. The 13.4% request is a bargaining figure only.

6. The Board has not acted on a C.A.F.C. report requesting a complete audit of the District.

In the committees' final report there was no written recommendation concerning this. An annual audit, as required by law, is carried out by a private state certified firm. The C.A.F.C. has consistently refused to supply information to justify the additional expense of a second audit.

NEWEST FINEST--Chief of Police John Morgan presents a badge to Dennis P. Destefano, Campbell's newest police officer. Promotions within the department created the opening which the 26 year old Campbell resident is filling. Destefano has completed two years at West Valley College and is currently attending San Jose State College, majoring in Administration of Justice.

MARINE PILOT

Marine First Lieutenant Thomas J. Wright, son of Mr. and Mrs. Donald W. Wright of 911 Old Orchard Road, Campbell, is serving with Marine Fighter/Attack Squadron 251 of the Marine Air Group 32, Second Marine Aircraft Wing, at the Marine Corps Air Station, Beaufort, S.C.

IN NAVY

Navy Seaman Apprentice Gordon L. Bailey, son of Mr. Robert R. Bailey of 275 Morrene Dr., Campbell, was graduated from basic training at the Recruit Training Center, San Diego.

Bailey is a 1970 graduate of Campbell High School.

HONOR ROLL

Carol Wittenberg, daughter of Mr. and Mrs. E. D. Pilger, 1769 Silacci Dr., has been named to the honor roll at Eastern Washington State College in Cheney, Wash., where she is a junior student.

Campbell teachers attending special art workshop this week

Approximately 50 teachers from Campbell Elementary Schools are attending an art workshop this week, at the Monroe Elementary School, it was announced recently by Jim D'Avis, acting superintendent of schools.

A free educational service provided by Binney & Smith, makers of crayons and other school art supplies, the workshop will be conducted by Mrs. Alva McGarah, who has taught extensively and holds a master's degree from the State University of Iowa.

The teachers will spend 15 hours of their own time learning about modern creative art education and some of its materials and tools. They will learn by doing, rolling up their sleeves and trying out the techniques presented by Mrs. McGarah.

These techniques will include some of the uses of crayons, water colors, poster paints, finger paints, colored chalks, and modeling clay. Simple craft techniques are also being shown, giving teachers an opportunity to work with paper, paste and other materials to gain three-dimensional effects.

The workshop activities will be ones which the teachers can use in their own classroom teaching.

School officials responsible for the workshop arrangements, in addition to D'Avis, include Mrs. Marcia Wells, art coordinator.

ART FOR TEACHERS---Mrs. Alva McGarah, art consultant from Binney & Smith, Inc. is conducting an art workshop for local teachers this week at Monroe School. The three-day workshop is being held at Monroe School. Participating teachers are attending on their own time.

Obituaries

CLAUDIN E. HANCOCK

Services were held this week for Mrs. Claudin E. Hancock, 77, 63 N. First St., who died Friday after a long illness.

A native of Bitterwater, California, Mrs. Hancock had lived in the county for 40 years. She was a charter member of Chapter No. 553, OES, a member of Methodist Women's Guild and Orchard City Grange No. 333. She was a past member of the County Woman's Club of Campbell.

Her sister, Mrs. Harriet Libhart of Campbell, survives her.

Services were conducted by Darling-Fischer & Faber Campbell Memorial Chapel, with burial in Santa Clara City Cemetery.

JANUARY 13:

On this date in 1913, the beginning of air parcel post was demonstrated, covering a route from Boston to New York in which a cargo of baked beans was ferried.

BOOKS

at Campbell Library

PSYCHIC PEOPLE, by Eleanor Touhey Smith, (133.0922)

For many years, Eleanor Touhey Smith, a noted librarian, has been interested in the occult, yet has found relatively few people who know anything about its literature. "Psychic People" is a portrayal of various individuals whose strange experiences have neither been exposed as spurious nor satisfactorily explained by scientific means. They are people, well-known in the fields of science, religion, philosophy, publishing and the arts, whose experiences cover a wide range of psychic happenings including precognition, automatic writing, miraculous healing, poltergeists, and evidences of reincarnation.

CORPORATE ETIQUETTE, by Milla Alihan (658.4)

In today's great corporate structures, the young executive who moves ahead must have more than a basic knowledge of the customs, formalities and accepted practices of his company, its people and its problems. He must have, to stand out and be counted, a most important attribute: executive tact and adroitness in all the many situations to which he will be exposed and in which he will be judged. Dr. Alihan, an industrial psychologist for management, reveals the many avoidable pitfalls facing the man marked out for possible advancement.

THE COMPLETE BOOK OF BICYCLING, by Eugene A. Sloane, (Non-fiction 796.6)

Just in time for Christmas we have purchased a book on bicycles. This includes all kinds of tips on purchasing bicycles and how to fit the bicycle to the person. This book tells you how to pack a bicycle and where to go on trips. It gives a run down of bicycle competitions with tips on training and conditioning. There is a complete history of the bicycle included plus a complete maintenance guide, with detailed instructions for maintaining and repairing your machine.

101 WAYS TO GO BOATING, by Zack Taylor, (Non-fiction 797.1)

Zack Taylor proves conclusively that you can enjoy boating on a modest budget and at no sacrifice in fun. A wide variety of boats is described here. Each boat is discussed in full, with complete details and tables of information to help you compare prices, models, materials, dimensions and versatility. Here are the latest data on double-end canoes, square stern canoes, sail canoes, Kayaks, runabouts, prams, sailing sizzlers, catamarans, inflatables, Johnboats, vest-pocket sailers and sailing surfboards. This book also gives full details on the equipment necessary to enjoy boat camping. The final chapter is about renting a boat.

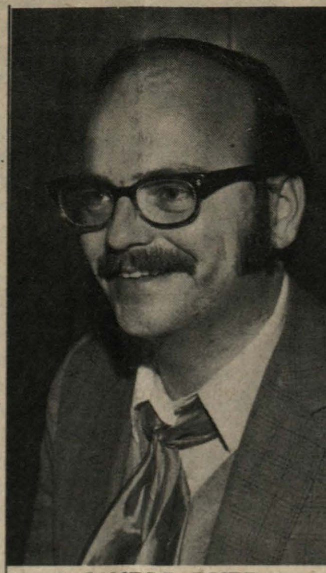
Musical director for Molly is Branham teacher

Feb. 5 through March 6, are the dates on which the West Valley Light Opera Association will present "The Unsinkable Molly Brown".

"Molly", adapted from the book by Richard Morris, music and lyrics by Meredith Willson, is a delightful musical that will be enjoyed by the whole family.

A cast of more than 50 singers, actors and dancers will be directed by Paul Gurev. Co-producers are Edward Hand and Eugene Francis, Barbara Valente will be the choreographer and Jacqueline Beard is the choral director.

James B. Dyer is the musical director. Dyer has done undergraduate work as a music major at the University of California, Berkeley, and is a graduate of music from San Francisco State College.



JAMES B. DYER

He has been a music teacher for the Campbell Union High School District; assistant conductor, Sixth U.S. Army Band, Presidio of San Francisco, and at present is music director at Branham High School.

He has also been active in many college productions for example, "West Side Story", "Wonderful Town" and "On the Town". This is his first association with the West Valley Light Opera Association.

"The Unsinkable Molly Brown" will open Feb. 5 at the Saratoga Civic Theatre, 13777 Fruitvale Ave., Saratoga.

Reservations and further information regarding this event may be obtained by calling 356-6410.

Camden High Notes ♪ ♪

by Linda Kent

Now that it's the skiing season, students interested in skiing lessons and trips can join Camden Ski Club.

Mrs. Jamison, Ski Club's advisor, said club members will be going up to Bear Valley in January for two days. During the trip, coach Woods will give free skiing instructions to all people interested.

Another benefit of the club is the fact that all club members are given discount prices.

Morgan speaks

Members of the County Woman's Club of Campbell will gather for their semimonthly meeting on Monday, Jan. 18, at 1 p.m.

"The door was locked" is the title of a talk which will be given by John Morgan, chief, Campbell Police Department.

Chairman for the meeting, which will be held in the clubhouse at 274 E. Campbell Ave., is Mrs. H. H. Combs. Assisting her will be Mrs. Anthony Jurras, Mrs. Frank Jacobson, and Mrs. Mildred Carter. Mrs. Everett Grell is president.

Environmental housecleaning will require lots of energy.

Cleaning up the environment—the air, water and landscape—is going to take lots of effort from all of us, and lots of energy.

PG&E will have to supply much of this energy. Tools for the job such as air pollution abatement systems, waste recycling plants, sewage disposal facilities and rapid transit systems must be powered by electricity or clean-burning natural gas.

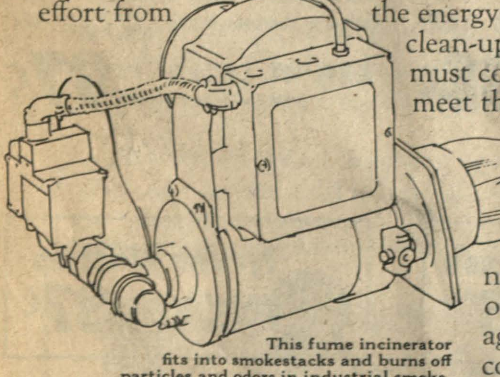
Besides providing the energy for this big clean-up job, we must continue to meet the increasing needs of our residential, agricultural, commercial and industrial customers.

This calls for substantial additions to our power generating resources and gas supplies.

In order to do our job we must invest $470 million in new construction in 1971. The fact that we have been able to build ahead in the past has assured you of reliable utility service here, while in some other parts of the nation people have suffered the inconvenience and high economic loss of power shortages.

In planning ahead we are designing our new facilities to meet the highest environmental standards.

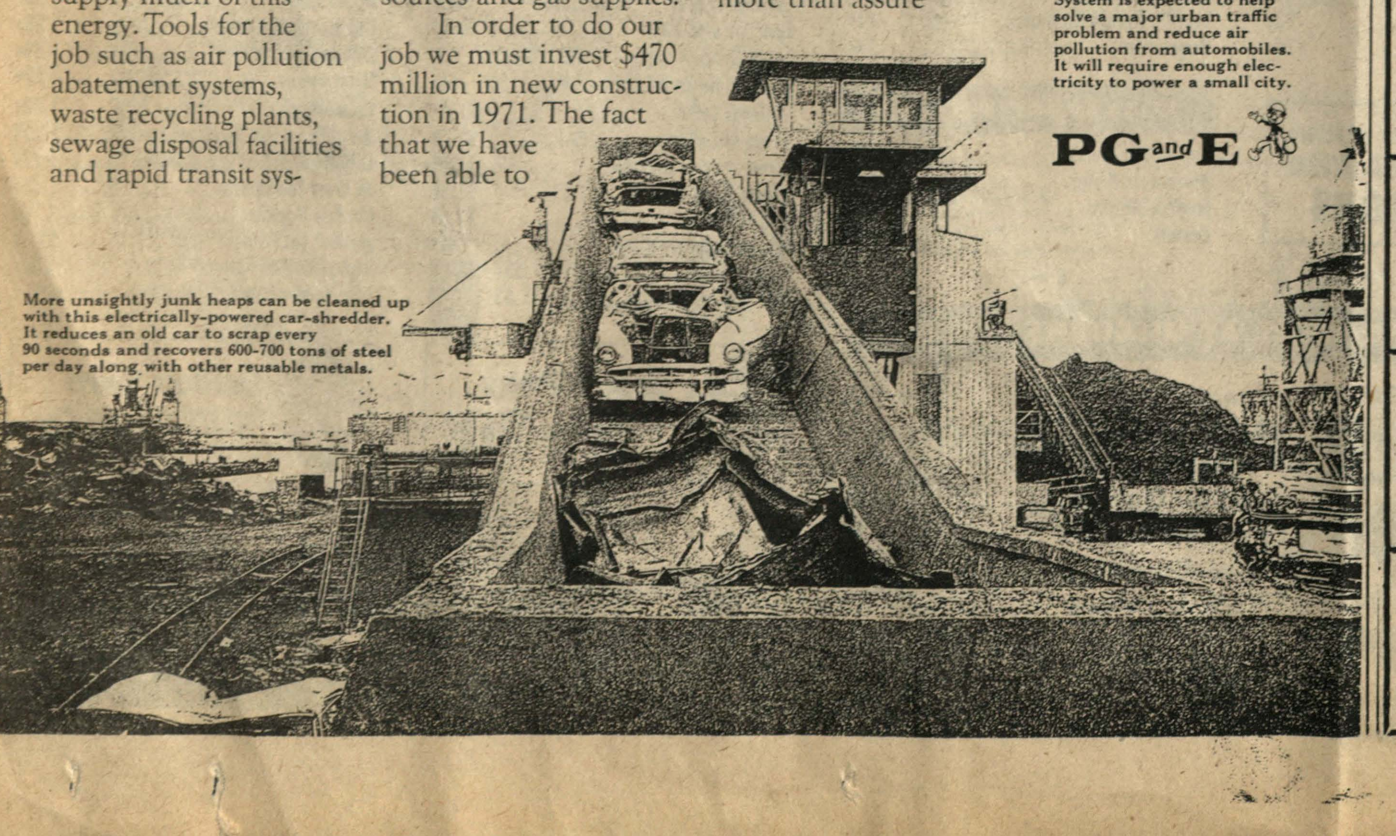
These new facilities will do more than assure you of continuing reliable service with environmental protection. They will also create new jobs, bolster the economy and add new tax income for local schools and governmental services.



This fume incinerator fits into smokestacks and burns off particles and odors in industrial smoke. An effective way to fight air pollution, it is operated by clean-burning natural gas.

The Bay Area Rapid Transit System is expected to help solve a major urban traffic problem and reduce air pollution from automobiles. It will require enough electricity to power a small city.

PG and E



More unsightly junk heaps can be cleaned up with this electrically-powered car-shredder. It reduces an old car to scrap every 90 seconds and recovers 600-700 tons of steel per day along with other reusable metals.

SMOKE WATCHERS™
INTERNATIONAL INC.
605 Third Avenue, New York, N.Y.

To enable every smoker who wants to break the smoking habit to do so painlessly, and permanently, is the goal of Smoke Watchers of San Jose who are giving a free lecture on Tuesday, Jan. 19, at the Congregational Church of Campbell.

Smoke Watchers uses group dynamics, a program in which each member aids the others. "We have a success rate of 97.6% of members that complete their short and inexpensive program," according to Greta Sturm director of the local organization.

Additional information is available from Mrs. Sturm, 379-7228.

John Ritter weds

Susan Galt Milne and John Frederick Ritter were married in a double ring ceremony Tuesday, Dec. 22 in the bride's parent's home, Saint Charles, Illinois. The Rev. Frederick Ludtke officiated.

Mrs. Ritter is the daughter of Mr. and Mrs. George Laing Milne of Saint Charles. The groom's parents are Mr. and Mrs. Kurt Ritter of 119 East Alice Avenue.

Given away by her father, the bride wore an empire gown of soft beige velvet and carried a bouquet of burnt orange, mid-century lilies and mistletoe. Mistletoe adorned the bride's hair.

Mrs. David F. Nelson of Chicago, the bride's sister, and Winston H. Miller of Saratoga, were the couple's attendents for the 7 p.m. candlelight service. Miller teaches at West Valley Junior College.

Mrs. Nelson wore an empire gown of moss green velvet and carried a colonial bouquet of winter greens and cones surrounding a candle.

The wedding dinner was held at the St. Charles Country Club.

Mrs. Ritter is a graduate of Wells College, Aurora, New York and is special sections editor for Courier Graphics Corp., which publishes newspapers in Claremont, Upland and Montclair, California.

Ritter, a graduate of Campbell High School, attended Northwestern University and received his BA from Claremont Men's College and MA from Claremont Graduate School. He is a teacher with the Chino Unified School District and head coach of the Claremont college's debate teams.

Mr. and Mrs. Ritter will live at 5201 Palmer Canyon Rd., Claremont.

Railroad takes a rest for winter overhauling

Volunteer engineers of the Oak Meadow and Vasona Park based Billy Jones Wildcat Railroad will put their tiny 18-inch gauge, steam locomotive in the round house shop during January and February.

The first annual overhaul and inspection of the Prairie, 2-6-2 locomotive, will be conducted during this period by busy volunteer workers.

Spokesman for the mini-railway revealed that since the inaugural run of July 26, 1970, the children's train has completed some 3,000 trips (an equivalent distance of a trip from San Francisco to Omaha, Nebraska) and hauled 72,000 passengers. Not included in the passenger totals were several special excursions for school children, Agnew patients, handicapped youngsters, large picnic groups, local service clubs and others.

William E. Mason, railroad president and electrical contractor based in Los Gatos, reported that the revenue earned during 1970 has been used to reduce a modest debtedness, incurred during the construction phase of the operation.

Heavy demands for money continue, Mason reported, to upgrade the rolling stock and locomotive because of age and deferred maintenance. Three new coaches are currently being constructed by volunteer coach builders at the Railroad Shops in Oak Meadow Park.

Mason also stated that some funds are earmarked for planned improvements to existing facilities.

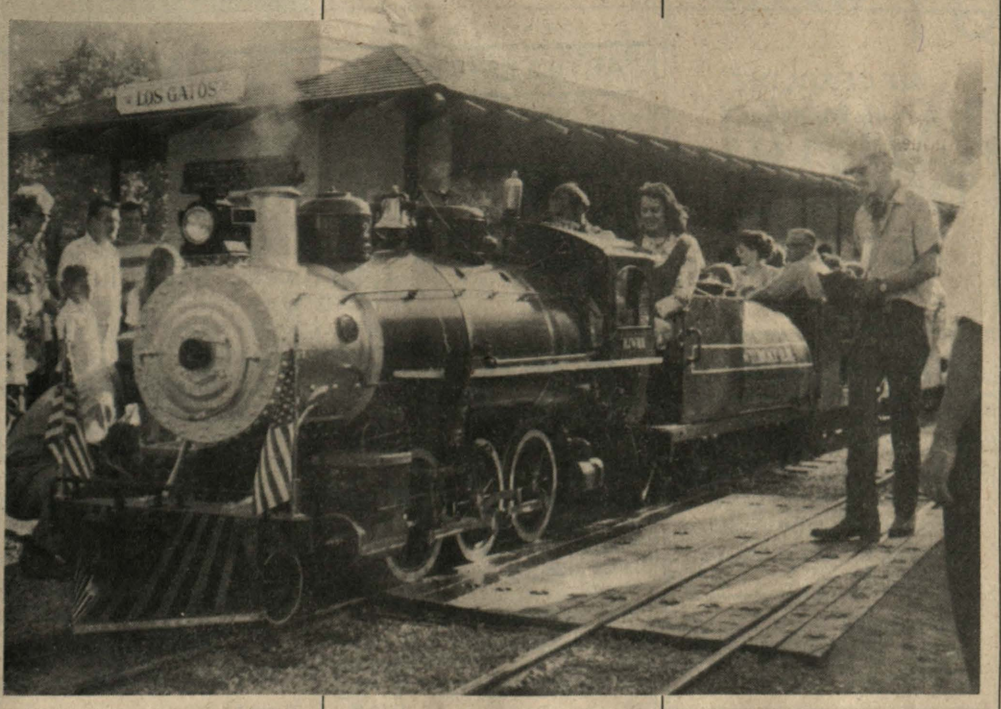
The non-profit corporation has set a policy of rendering assistance to worthwhile, youth-oriented institutions and projects. It encourages the use of the mini-train for fund-raising events and additionally offers script books and annual passes at reduced rates to economy minded families.

The Billy Jones Wildcat Railroad, Inc. is a non-profit corporation who owns and operates the live steam train in Oak Meadow and Vasona Parks, Los Gatos. The group was formed in response to public concern that the train, operated by the late Southern Pacific engineer, Billy Jones, for many years at Daves and Winchester Avenues, would be sold and leave the area.

Funds to purchase the railroad, build facilities, and relocate equipment in the two public parks have come entirely from voluntary donations. Additional donations of time, services, talent and materials has enabled this county-wide, ad-hoc enterprise to meet it's goals within a year of it's inception.

The railroad has been operating for the past five months on a daily basis during the summer months and on a week-end only basis during the fall and winter season.

The plaintive tones of the train whistle will be heard again sometime in March.



READY FOR A REST---Billy Jones Wildcat Railroad is ready for a rest and vacation, according to the many volunteers who plan to spend the months of January and February giving the mini-train its first annual overhaul. The tiny train carried 72,000 passengers since it was moved and restored last July. Randy Jones, right, gives the locomotive a last minute inspection, while Mrs. Dorothy Alexander takes over the fireman's job.

Campbell girl takes Ethiopian teaching post

MARIANNE A. PATTON

Marianne A. Patton, 24, daughter of Mr. and Mrs. Ernest Patton of Harriet Ave. in Campbell, flew from San Francisco on January 8 to begin a two-year period of teaching in Ethiopia.

Marianne has lived in Campbell all her life and attended Campbell High School 1960-61. She was graduated in 1964 from Mountain View Academy, a Seventh-day Adventist High School. She then attended Pacific Union College in Angwin and received the B.A. degree with honors in home economics in 1969.

During her years at the college she participated in the Student Missions Program and spent four months at the Ethiopian Adventist College at Kuyera, Ethiopia.

This program is sponsored by many SDA colleges and gives students a chance to spend from three to 12 months working in some other country gaining very valuable insights and experience as well as filling a specific need.

After graduation from PUC, Marianne went to Berrien Springs, Michigan, to study under a Weiniger fellowship at Andrews University. She received an M.A. degree in guidance there in August, 1970.

She leaves now to return to the same college in Ethiopia where she was three years ago. She will be head of the home economics department there, as well as beginning a guidance program and teaching English. The Ethiopian Adventist College, 150 miles south of Addis Ababa, is on the British spiral system of education and is composed of an elementary school of approximately 500 students, a secondary school of 200 students, and a smaller number of junior college students. Under the direction of many able administrators, including the current president, Dr. O. C. Bjerkan of Norway, the school has grown and prospered over the past 20 years.

country at a young age, she said, "It is exciting to be privileged to work for God as well as my fellow man while still young. It is an honor to live among, work with, and learn from people of another culture, and I hope that I might in just a small way contribute to the advancement of Christianity as well as the increase of human understanding and meaningful, healthful living. I wish more young people were interested in overseas service of some kind."

If the sparkle in her eye is an indicator, she will enjoy her work.

Trinity asks Ridings for interim post

Dr. Lorin Ridings has accepted the invitation of Trinity Presbyterian Church at 3151 Union Avenue in San Jose to serve as the Interim Pastor.

Following a ten-year Pastorate at the Centerville Presbyterian Church in Fremont, during which time the congregation grew from over 500 to over 1200 and a new sanctuary was built. Dr. Ridings retired Aug. 31. Since that time he and Mrs. Ridings spent a six-week study leave tour in the Reformation Centers of Scotland and Europe and have just returned from a three-week holiday in the Hawaiian Islands.

Born in Tacoma, Washington, Dr. Ridings graduated from Berkeley High School and the University of California. He received his theological training at Princeton Seminary in New Jersey. In 1945 Whitworth College bestowed upon him the honorary degree of Doctor of Divinity in recognition of his work with young people in the state of Washington.

He has served as the Moderator of Seattle and San Francisco Presbyteries and has been active in the work of the local Councils of Churches.

Adult education offers full program for spring semester

Metropolitan Adult Education Program says that for $1.75 you can earn a high school diploma, study speed reading, take aviation ground school or complete a specialized business certificate.

All the information about these and many other courses offered by adult education is contained in a 24 page tabloid now being mailed to local residents.

The spring offerings include more than 1200 classes, conducted day and night in basic education, business, high school, homemaking, fine arts, and vocations training skills.

Courses like sign language, shorthand, astronomy, education for childbirth, marketing and photo offset lithography are available.

Others include classical guitar, special cookery, marriage relations, creative retirement, federal income tax, driver training and many more.

The course descriptions, center addresses and counseling information are all contained in the current "newspaper" which is mailed directly to Campbell High School district residents.

Campbell's administrative center is located at Del Mar High School, with many classes offered at different locations throughout the district. For information, call 292-2737 or 293-5400.

ZPG declares auto next target

Zero Population Growth, Inc., in a departure from its battle against overpopulation, has announced it is waging war on the internal combustion engine.

ZPG is calling upon citizens to "swear off new cars for one year." Their executive director, Shirley Radl, is asking its 27,000 members to refuse to be a party to the perpetuation of the internal combustion engine and asking for written pledges which will be delivered to the president of the nation's largest automobile manufacturer on Earth Day, April 22. ZPG's headquarters is at 330 Second St., Los Altos.

Volunteers tour defects center

Mrs. P. L. Fischer, 624 Ginden Dr. and Mrs. Arnold Gilfix, 3723 Acapulco Dr., were among 18 National Foundation-March of Dimes volunteers from Santa Clara County who were guests at an open house at the March of Dimes Birth Defects Center in San Francisco recently.

Purpose of the tour was to help local volunteers understand the operation of the March of Dimes Birth Defects Centers, which are located in various areas of the United States and which are supported by funds raised by volunteers. One of the events of the January March of Dimes against birth defects is the Mothers' March, which is scheduled on the 26th, and which the two Campbell women are working.

Campbell residents who would like to work on the campaign may call Mrs. Fischer, 378-1077, or the Santa Clara County chapter, 292-3122.

AFRICAN VIOLETS

The African Violet Society of the South Bay will hold their regular monthly meeting at Palo Alto-Salinas Savings on Tuesday, Jan. 19 at 1 p.m.

Montalvo holds weekly symposium

West Valley residents may sign up for a symposium in sexual communication for parents at Villa Montalvo in Saratoga.

The eight-week series will be held on Wednesday evenings, 7:30 to 9:00, beginning January 20 and continuing through March 10.

The curriculum is tailored to provide parents with the knowledge and skills needed to better communicate with and guide their children in the areas of sex, sexuality and love.

The series is sponsored by the California Institute for Health Education, and teaching staff and consultants are all local professionals. Conducting the series will be Dr. Arthur L. Foster, clinical and child psychologist of Los Gatos, former university lecturer and author of more than 100 articles on scientific and psychological issues; and Randolph Kent, author and teacher of the Biology and Sex Education curriculum in the Saratoga Elementary School District.

Consulting staff for the symposium will be: Dr. B. Frank Gillette, superintendent of the Los Gatos Joint Union High School District; Dr. Walter H. Otto, Saratoga physician; Dr. George A. Muench, professor of psychology at San Jose State College; Rev. Roy Strasburger, St. Andrews Episcopal Church in Saratoga; Dr. Russell F. Shaw, Los Gatos pediatrician; and Dr. John Rieger, obstetrician and gynecologist of Los Gatos.

For registration or further information on class fees, call 354-3880 or Villa Montalvo in Saratoga.

P.E.O. celebrates Founders' Day

Mrs. Homer Hyde of Campbell is inviting all P.E.O. chapter members and unaffiliates to attend the Founders' Day luncheon of the P.E.O. Reciprocity Bureau Santa Clara District, on Thursday, Jan. 28, 11:45 a.m. at the San Jose Country Club, 15571 Alum Rock Ave.

The P.E.O. California State officers will be the honored guests on that occasion. Mrs. W. H. Cilker will introduce Mrs. J. R. Giantvalley, state president. Reservation deadline is Jan. 18. Information may be obtained by calling Mrs. Edmund A. Krider, 266-5803 or Mrs. C. L. Schick, 377-7309.

GARDEN CLUB

Blossom Valley Garden Club will meet Wednesday, Jan. 20 at St. Edwards Episcopal Church, 15040 Union Ave. Persons interested in attending should call Mrs. Eugene Riggs, president, 371-0294.

PHARMACY PHACTS

By Allan Blaine

While the rate of admission to general hospitals has increased in recent years, the average length of stay fell from 15 days in 1935 to slightly more than 9 days in 1965.

* *

Obesity is not a disease, although obese people are more likely to develop heart trouble and other illnesses than non-obese people.

* *

Although it might seem that antibiotics have been around for as long as we can remember, the word "antibiotic" itself did not come into being until 1941, when it was coined by Dr. Selman A. Waksman, the discoverer of streptomycin.

* *

Laboratory rats generally prefer to do a reasonable amount of work to obtain their food, according to experiments done at UCLA. But when the work load was increased, the animals went on strike.

* *

When your doctor prescribes the best, we do the rest, at the pharmacy with the "bedside manner."

Canadian Cites Motorists' Moral Responsibilities

Reports on Most Common Faults Found In Mass Vehicle Checks Reveal Need for Maintenance

By STRUAN MATHESON

Information Director, Canada Safety Council

There's no getting away from it — motorists are responsible both morally and legally for the safe operating condition of their vehicles. And whether or not there are compulsory spot or universal annual car checks in their part of the country.

The driver himself can detect the major dangers.

Car Lighting Systems Top the List

The most common fault spotted in mass vehicle checks both in Canada and the United States is the lighting system, dangerous defects which decrease the ability of the motorist to see and be seen.

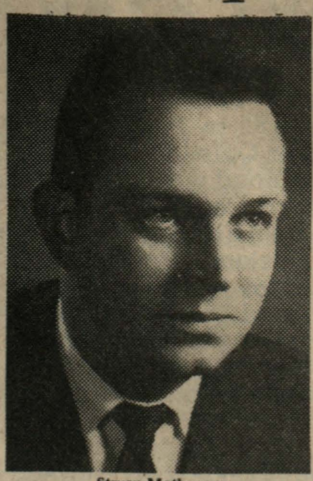
Headlight alignment should be checked at least once a year. But most faults detected were those even the most nonmechanically minded drivers should have detected themselves.

Just because lighting is the most prevalent defect doesn't rate it the most dangerous.

As disastrous as a brake failure, for example. Yet the driver himself can anticipate this dangerous and unnerving hazard. If the foot pedal sinks to the floor under light foot pressure, the brake linings are worn or there's a leak in the braking system.

Another Warning Sign

Another warning sign is when the car pulls constantly to one side when stopping. This could mean the brake lining is wearing unevenly or is oil soaked on one side, both of which are due to wheel cylinder failure. It could also indicate the wheel alignment is off. In either case, the defect should be fixed to ensure safer driving.



Struan Matheson

If the rear wheels lock on light application of the brakes, another defect in the braking system is indicated — that of a leaking oil seal.

Faulty steering is also exceptionally dangerous. Excessive play in the steering is the tip-off to this defect and can indicate a fault in any part of the steering train.

Tires, the driver's only contacts with the road, require thorough if not doting care. At the wheel, the motorist is tipped off to tire hazards by car vibrations at 50-65 miles an hour and in bad cases at even lower speeds. Another possible indication of poor tire inflation is the need to steer constantly to keep the car on the road, although this could also indicate faulty suspension.

Cause of Trailer Sway

Bald tires are unsafe because they can't grip the road when this is a must. They skid on slippery surfaces and actually water ski in heavy rain because of water forcing its way under the tire.

Applied to trailers, underinflation of trailer tires causes high-speed trailer sway, fishtailing and even jack-knifing. Because of their size and load carried, almost all trailer tires require higher inflation than car tires.

The exhaust system should also be checked on a regular basis. The odorless, colorless killer, carbon monoxide gas, is emitted by faulty exhausts.

The motor, more and more complicated as the years go by, ties in with safety in one big way — if it doesn't do what you expect of it when you really need top performance you can be in great danger.

Check Ignition Wiring at Tune-Up Time To Forestall Service Stops En-Route

Motorists who look for the end of hard starting trouble during warm spells may be in for an unpleasant surprise. For the ravages of winter driving may hit a critical area, the wiring system.

As a result, starting may be difficult and driving performance erratic. All this may stem from salty slush sprayed on the engine compartment or extremely cold temperature that makes wiring brittle. And less driving during winter means fewer stops at service stations where potential trouble may be spotted.

Inspection of ignition wiring along with other normal services at tune-up time is indispensable to good motoring. Spotting signs of wear may catch present performance trouble as well as preventing future trouble.

Cracks in wiring insulation or corroded terminals can affect engine performance or even cause complete breakdowns. There are several causes for the cracks and corrosion, especially in older cars.

Excessive oil, grease or atmospheric conditions can cause wiring insulation to become brittle and to crack. Water and dust can enter these cracks and partially ground the high-tension voltage. As a result, not enough current reaches the spark plugs.

Another cause of wiring deterioration is corona. Corona is a magnetic field surrounding the wiring and is caused by high-tension current surging through the wiring.

This magnetic field is so strong that it breaks down the surrounding oxygen, converting it into ozone.

Ozone attacks the insulation and after a period of time destroys the wiring's usefulness.

Even a slight interruption of full power can cut engine power greatly. The ignition system builds an original 12 volts power into a possible 25,000 volts. So a leakage of one voit at an early ignition stage can cost up to 2,500 volts by the time the spark plugs are reached.

To get maximum effectiveness from ignition wiring, keep it free from dirt, oil and grease. All terminals should be inspected periodically for corrosion and for proper connections.

Maintenance Hints *For Windows, Windshields*

The following suggestions for auto glass maintenance are offered by Karl K. Alberti, auto glass replacement manager for Libbey-Owens-Ford

• KEEP WINDOWS CLEAN. A dirty windshield, rear window or sidelights impairs vision. Dirt accumulation may form a grit that scratches the glass when it is wiped.

• KNOCK ICE OFF WIPER BLADES in winter, to maintain the efficiency of the wipers.

• REPLACE BROKEN OR CRACKED windshields immediately. Clear, unobstructed vision is important at all times.

• NEVER USE ABRASIVE CLEANERS such as rubbing compound on the inside of the rear window if it is the defogging type. The lines on the glass surface carry an electrical current and damaging them can break the circuit.

• DON'T USE GLASS AS A HANDLE to slam door. This undue stress may break the glass.

• INSPECT THE WEATHERSTRIPPING regularly to prevent scratches from worn-out stripping. If the rolling mechanism binds, have it inspected and repaired to prevent the glass from rubbing internal door parts.

SLOWPOKE DANGEROUS

The slowpoke on the ex-
ressway is just as danger-
us as the speeder. If traffic
reams past you or you are
ading a slow parade in your
ne, speed up or get off the
pressway. You are a haz-
d when you block traffic.

LEGAL NOTICE

NOTICE OF IMPROVEMENT SANITARY SEWERAGE PROJECT NO. 1971-1

NOTICE IS HEREBY GIVEN that on the 23rd day of December, 1970, the Board of Directors of County Sanitation District No. 4 of Santa Clara County, California, adopted its Resolution of Intention No. 70.12.155, wherein it did declare that in its opinion the public interest and convenience required and that it was the intention of said Board to order the acquisitions and improvements in and for said District as more particularly described in Exhibit "A" hereto attached and incorporated herein by reference.

All of said work and improvements are to be constructed at the places and in the particular locations, of the forms, sizes, dimensions and materials, and at the lines, grades and elevations shown and delineated on the plans, profiles and specifications preliminarily approved therefor by the Board of Directors of said District and on file for public inspection in the office of the District Secretary.

Notice is hereby given of the fact that in many cases said work and improvements will bring the finished surface of the ground to a grade different from the surface as it now exists, and that to said extent said grades will be changed and that said work will be done to said changed grades.

Said contemplated acquisitions and improvements, in the opinion of said Board, are of more than local or ordinary public benefit, and the costs and expenses thereof are made chargeable upon an assessment district, the exterior boundaries of which are the composite and consolidated area as more particularly shown on a map thereof on file in the office of the District Secretary, to which reference is hereby made for further particulars. Said map indicates by a boundary line the extent of the territory included in the proposed district and shall govern for all details as to the extent of the assessment district.

The descriptions of the acquisitions and improvements and the termini of the work contained in the Resolution of Intention are general in nature. All items of work do not necessarily extend for the full length of the description thereof. The plans and profiles of the work and maps and descriptions, as contained in the Engineer's report, shall be controlling as to the correct and detailed description thereof.

The estimated cost of the project is $157,147.94, of which the District will contribute an estimated $5,112.00.

Notice is hereby given that serial bonds to represent unpaid assessments and bear interest at the rate of not to exceed 7% per annum, will be issued in the manner provided in the Improvement Bond Act of 1915, (Division 10 of the Streets and Highways Code), the last installment of which bonds shall mature not to exceed fourteen years from the second day of July next succeeding ten months from their date.

Except as herein otherwise provided for the issuance of bonds, said work shall be done pursuant to the Municipal Improvement Act of 1913.

Reference is hereby made to proceedings had pursuant to Division 4 of the Streets and Highways Code, all on file in the office of the District Secretary.

Notice is further given that the District Engineer, pursuant to said Act and said Resolution of Intention adopted pursuant thereto, did, on December 23, 1970, file with the District Secretary his report in writing on said acquisitions and improvements, consisting of plans, profiles, specifications, estimate of costs and incidental expenses, diagram and assessment, and maps and descriptions, and said Board did on said date consider and examine said report and by resolution prelimininarily approved and confirmed same and ordered that said report stand as the report for the purpose of all subsequent proceedings had pursuant to said Resolution of Intention.

NOTICE IS FURTHER GIVEN that Wednesday, the 27th day of January, 1971, at the hour of 8:00 o'clock P.M. of said day, in the regular meeting place of said Board, 100 East Sunnyoaks Avenue, Campbell, California, are the time and place appointed and fixed by said Board when and where it will consider and finally determine whether the public interest and convenience require said acquisitions and improvements, and when it will consider and determine whether the owners of a majority of the area of the property in the proposed assessment district have protested against said acquisitions and improvements or any portion thereof, and when and where it will consider and finally act upon the Engineer's report filed pursuant to said Resolution of Intention, and when and where it will hear all protests in relation to said proposed acquisitions and improvements, or to the grades at which said work will be done, or the extent of the assessment district, or to the Engineer's estimate of the costs and expenses thereof, or to the proposed diagram and assessment, or to the maps and descriptions, and that any person interested may file a written protest with the District Secretary at or before the time set for the hearing referred to herein.

Reference is hereby made to said Resolution of Intention and said report, including plans, profiles, specifications, estimate of costs, diagram and assessment, and maps and descriptions, for a more particular description of said acquisitions and improvements to be had and done, and for further particulars, all on file in the office of the District Secretary.

Dated: December 23, 1970.
/s/ DeLora Spence
District Secretary, County Sanitation
District No. 4 of Santa Clara County

EXHIBIT "A"

UNIT NO. 1 Hunt Way (City of Campbell)

The construction of sanitary sewer mains, wye branches, risers, cleanouts, manholes and laterals, with cast iron manhole and riser frames and covers in Hunt Way from Campbell Avenue southerly about 760 feet.

UNIT NO. 2 Bent Drive (County of Santa Clara)

The construction of sanitary sewer mains, wye branches, risers, cleanouts, manholes and laterals, with cast iron manhole and riser frames and covers in Bent Drive from a point about 130 feet westerly of the westerly line of Peter Drive easterly to Leigh Avenue, thence northerly in Leigh Avenue about 145 feet to an existing sewerage facility of the District.

UNIT NO. 3 Quito Park Area (City of Saratoga)

The construction of sanitary sewer mains, wye branches, risers, cleanouts, manholes and laterals, with cast iron manhole and riser frames and covers in Paseo Tierra from Paseo Presada to Quito Road, Bucknall Road from Quito Road westerly about 700 feet and from Paseo Cerro northwesterly about 150 feet, Paseo Olivos from Quito Road to near Bucknall Road, Paseo Flores and Paseo Cerro from Quito Road to Bucknall Road, and Quito Road from Paseo Olivos to Paseo Flores and from Paseo Cerro to an existing sewerage facility of the District near Elmwood Drive.

GENERAL

The acquisition of a right of service and use in the sanitary sewerage and sewage disposal facilities of County Sanitation District No. 4 of Santa Clara County, and the acquisition of all lands and easements, disposal and other rights, and the doing of all work and the construction of all improvements auxiliary to any of the above and necessary to complete the same.

LEGAL NOTICE

NOTICE INVITING SEALED PROPOSALS OR BIDS
COUNTY SANITATION DISTRICT NO. 4 OF SANTA CLARA COUNTY, CALIFORNIA
SANITARY SEWERAGE PROJECT NO. 1971-1
UNITS 1, 2, and 3.

Pursuant to the Municipal Improvement Act of 1913, and the resolution directing this notice adopted on December 23, 1970, by the Board of Directors of the County Sanitation District No. 4 of Santa Clara County, said Board invites sealed proposals or bids for the construction of sanitary sewer mains, wye branches, risers, manholes and sewer laterals, as more particularly described in Resolution of Intention No. 70.12.155, adopted by said Board on December 23, 1970, which resolutions are on file in the office of the District Secretary and to which reference is hereby expressly made for a more particular description of that portion of the work to be done which is included in the assessment district.

All of said work is to be done at the places and in the particular locations, of the forms, sizes, dimensions and materials, and to the lines, grades and elevations as shown and delineated upon the plans, profiles and specifications made therefor and preliminarily approved by said Board on December 23, 1970. Bids are solicited for work Units 1, 2 and 3 as shown in said plans and specifications.

Payments will be made in cash by said District to the Contractor in accordance with the provisions of the specifications, and on itemized estimates duly certified and approved by the District Manager and Engineer submitted in accordance therewith, based on labor and materials incorporated into said work during the preceding month by the Contractor. The District will advance the necessary funds to make the progress payments from the General Fund pending receipt of funds from the sale of bonds to represent unpaid assessments. This provision supersedes any provision to the contrary set forth in subparagraph (a) of Paragraph 37 of Part II of the Special Conditions. District shall retain ten percent (10%) of the amount of each such estimate, and the accumulation of said amounts so retained from said progressive payments will be paid to said Contractor thirty-five (35) days after the completion and acceptance of said work by said District Manager and Engineer and said Board of Directors.

Notice is hereby given that on December 23, 1970, the Board adopted the general prevailing rate of per diem wages to be paid to the various craftsmen and laborers required to construct said improvements, a copy of which is available to any interested party on request at the principal office of the District at 100 East Sunnyoaks Avenue (P.O. Box 368) Campbell, California.

All proposals or bids shall be accompanied by cash, a cashier's or certified check payable to the order of the District Secretary, amounting to ten percent (10%) of the bid, or by a bond in said amount and payable to said District signed by the bidder and a corporate surety, or by the bidder and two sureties who shall justify before any officer competent to administer an oath, in double said amount and over and above all statutory exemptions. Said check shall be forfeited or said bond shall become payable to said District in case the bidder depositing the same does not, within 15 days after written notice that the contract has been awarded to him, enter into the contract with the District.

The Contractor shall furnish a surety bond in an amount equal to one hundred percent (100%) of the Contract price as security for the faithful performance of this Contract and shall furnish a separate bond in an amount at least equal to one hundred percent (100%) of the Contract price as security for the payment of all persons performing labor and furnishing materials in connection with this Contract.

Said sealed proposals shall be delivered to the District Manager and Engineer on or before 2:00 o'clock p.m. on Tuesday, the 26th day of January, 1971, at 100 East Sunnyoaks Avenue, P.O. Box 368, Campbell, California, 95008, said time being at least fourteen days from the time of first publication of this notice. Bids will be publicly opened, examined and declared on said day and hour. Said bids will be referred to and considered by the Board at its meeting at 8:00 o'clock p.m. on Wednesday, the 27th day of January, 1971.

A copy of the plans and specifications may be obtained from County Sanitation District No. 4, 100 East Sunnyoaks Avenue, P. O. Box 368, Campbell, California, 95008, upon deposit therefor of $15.00, $10.00 of which will be refunded if said plans and specifications are returned within 15 days after date of bid opening.

Dated: December 23, 1970

Letters to the Editor

QUESTIONS ACTION

To The Editor:

First let me thank you for giving me this forum again for my protestations. I do appreciate your printing all of my letters in their entirety each time.

Second, I know you don't like recriminations before the fact. However, it is well known that you do print releases from Mrs. Judy Ruscigno, in particular, and so I feel that the request to the new Att. Gen. Evelle Younger (and publicized in the San Jose News, Jan. 7, 1971) to investigate the allegations made by Mrs. Ruscigno and Jim Gilliland regarding the school board's "majority faction" will probably be printed in this issue.

As a layman, I do not pretend to know all the information except that which is available to the public and so I must ask for their information. If they (Mrs. Ruscigno and Mr. Gilliland) claim privileged information – O.K. – but they have not stated this.

I will not even bother with that information which was explained to my satisfaction regarding our business manager (the $900,000 plus error in the estimated budget, the handling of over a million in bond proceeds, and the one million seven hundred thousand revenue advance) at the Dec. 3 meeting – Mr. Gilliland did not see fit to even appear at that meeting!

As to the failure to conduct a complete financial audit:

(1) the board has an annual audit conducted by a private state certified accountant and,

(2) further, a review of the district's financial condition by the County Education Office was made at the request of Acting Supt. Jim D'Avis in October 1970 (see minutes Dec. 3, 1970).

Later in the report they cited "failure of the board to permit private citizens to resign from board-appointed committees". This move did take place at the meeting on Nov. 12 at Rosemary School and was explained – because the board had not had time to read and act upon this committee's report – BUT Mrs. Ruscigno voted to keep this committee "in group" at the Dec. 3 meeting at Rolling Hills School. (As mentioned before, Mr. Gilliland was not at this meeting.)

I must ask for explanations and verifications of further charges:

"POSSIBLE violation of state law in bidding procedures." Please explain and verify!

"POSSIBLE election code violations in the 1969 trustee elections involving employee organizations." Please explain and verify!

"POSSIBLE Brown Act violations by the board majority in 1970." Please explain and verify!

"POSSIBILITY that the board majority held an illegal public meeting in 1970." Please explain and verify!

"POSSIBLE violations of the Winton Act by the board." Please explain and verify!

"POSSIBLE usage of school district personnel for other than school business." Please explain and verify!

"POSSIBLE intimidation of school district personnel." Please explain and verify!

Mrs. Ruscigno and Mr. Gilliland also charge "that salary negotiations APPARENTLY contributed to the demotion of former Supt. Neal Royer last Oct. 8 by the board majority." If these two are privy to this information then they may be violating their posts by revealing the reason for the demotion which is to be released only by the order of Mr. Royer.

It seems these two board members are so fraught with POSSIBLES and APPARENTLIES that they, as board members, are not functioning credibly and cannot be ACTIVELY POSITIVE and should thereby be taken with a bit of apprehension on the part of the thinking public.

My last thought regarding this whole mess is:

(1) The letter distributed by the Citizens Against Recall Election warned of the dangers of the recall splitting the community – and we have seen this happen.

(2) The facts and issues bulletin distributed by the Concerned Citizens Committee warns of "'factionalism' on the board" and we have seen this in this action by Mrs. Ruscigno and Mr. Gilliland, who continue to use the medium of the press to conduct board business to their seeming advantage.

I ask everyone in the community – including our board – to stop this pettiness and start dealing with the important job we have to do – EDUCATE OUR CHILDREN!

Dorothy Mitchell

JUST THANKS

To start the new year off right, I would like to thank a certain person who wrote in a letter to be sent to the Paris Peace Talks. It may not seem much to many but it means a lot to some. Thank you again, very much.

The only traces of vacation that are left are colds, broken legs, flu and, best of all, your memory, that places every pleasant thought you had of that time on a pillow of satin, so that you can return to lay your mind right beside and reminisce about the good times, friends, families of loved ones that you had and saw at holiday time.

WHAT TO DO?

I believe that people need people to get through life. Not need in the sense to take advantage of that person, but need as in helping one another through the obstacles of everyday living.

For instance, I would like to have somebody near, when I'm scared, worried, upset or angry, but many of the times it isn't possible. It could help so much, too. But by meeting and associating with different types of people and their moods you can determine which people you would like to know.

To do this you must go places to meet people. And I have just the things and places for you to go to do this.

Starting January 14, Girl's Sports will meet at Westmont at 2:30. The next day at 3, Soccer at Westmont. Also, wrestling at Camden at 3:30, plus a varsity and F/S basketball game with Camden at Campbell, time 7 p.m.

Jan. 16, there will be an all-day Debate Tournament. Jan. 19, we will meet at Leigh for wrestling at 3:30. Also at Leigh, Campbell vs. Leigh's varsity and F/S basketball team. Jan. 22, will end the second quarter. Branham will play soccer here at 3. Wrestling at 3:30 here with Saratoga. F/S and varsity basketball at Saratoga, too.

Good luck with meeting others and have fun.

LEGAL NOTICE

NOTICE OF HEARING

NOTICE IS HEREBY GIVEN that the City Council of the City of Campbell has set the hour of 8:00 P.M. on Monday, the 25th day of January, 1971, in the Council Chambers of the City Hall, 75 North Central Avenue, Campbell, California, as the time and place for public hearing on the application of Santos Aparicio for approval of plans and elevations for an industrial warehouse building at 81 and 89 Dillon Avenue in a P-D zone.

Plans and map of property on file in the office of the City Clerk, 75 North Central Avenue, Campbell, California.

Interested persons may appear and be heard at said hearing.

Campbell JayCees play major role in community projects

In observance of National JayCee Week (Jan. 17-23), Mayor Dean R. Chamberlin has issued a proclamation as official recognition of the active part the Campbell JayCees have played in community-wide projects.

According to Allan Blaine, Campbell JayCee president, JayCee Week marks the founding of the organization in 1915.

The JayCees today have a membership of more than 300,000 and are active in 6400 communities in the United States. The Campbell JayCees chapter was formed in 1964.

Actively supporting the local chapter, are the wives of the members who have formed their own organization called the JayCettes. They are also involved in community-orientated projects on their own.

Future projects of the JayCettes include helping rehabilitate junior delinquents and devoting time to senior citizens of Campbell.

Some of the community projects in which the JayCees were involved in 1970 are pictured on this page.

President Blaine emphasizes that the JayCees is a civic organization open to all young men 21 through 35 years of age. More information on the organization can be obtained from Blaine, 356-5883 or from Joe Brundage, vice-president, 378-1965.

West Valley Sports

BASKETBALL

The West Valley College basketballers go to the floor tonight for what could prove the game of the year as the Vikings play host to Contra Costa College at 8 p.m. in the Campbell High gym.

The Comets are picked to take it all in the Camino Norte Conference but in some circles the Vikings are right up there with them. Both undefeated in league play, the two will be vying for the CNC top spot.

CCC has already beaten WVC in 1971 play as they rambled to a 97-85 win in the San Joaquin Delta Tournament earlier in the year. The Comets went on to take a tourney first while Valley ended third.

West Valley is the only club to have beaten Contra Costa in Camino Norte play as they took a one point decision in 1970 on a last second bucket by Joe Gallagher. The Richmond hoopsters have two conference crowns under their belts in the two years of the CNC.

The following Saturday night the Vikings will host Moffett Field in a non-conference game at Campbell High. Game time will be 8 p.m.

JANUARY 13:

On this date in 1949, William P. Odom, flying a Beechcraft "Bonanza", set a world record distance for light planes by flying 2400 miles non-stop from Honolulu to Oakland, California.

Man On the Street

with CARL WINTHER

Have you ever attended an authentic Indian Pow Wow? If you haven't, why not take a trip to Oakland this coming week-end and be the guest of the United American Indians of Santa Clara county. This invitation comes from none other than Frank Garcia, their president and editor of their official magazine "Smoke Signals".

Frank, a full-blooded Apache, is also a former officer of the Apricot Growers Association as well as an award-winning officer of the Moose Lodge. The Pow Wow, according to Frank, will take place at the Oakland Museum at 10th and Oak Streets and at Oakland's Kaiser Center.

You'll see demonstrations by Indian artists and craftsmen, potters, sand painters, basket weavers, bead makers and wood carvers.

Of interest to collectors, many of these artifacts and crafts will also be for sale. The Museum will be open from 10 to 5 each day of the Pow Wow.

Thought for the Week!

Would you pay someone a day of your pay to do what you did today?

A pocket-size booklet entitled "Bicycle Safety" is available free to all bicycle riders by calling at the Wheel-Away Cycle Center at 402 E. Hamilton Ave. Bill Paul, founder of the cycle center said "It's more important now than ever before that bicycle riders are fully aware of the safety precautions they should follow.

Our streets and roadways are carrying an increasingly heavy amount of traffic, so bicycle riders should follow every safety precaution."

Here are some of the safety tips illustrated in the booklet. First, of course, is to obey all traffic regulations such as red and green lights, highway directions, etc. Another is to keep to the right, follow traffic, always ride in a straight line, never weave in and out.

Even to a bicyclist, a pedestrian has the right of way! Hand signals, too, are required of bicyclists, the same as for motorists. Another rule is to always ride alone—bikes made for one rider should never carry two.

These are some of the "12 Rules of the Road" for bike riders. For all the rules, in colorfully illustrated form, get your free booklet at Wheel-Away Cycle Center.

CHICKEN REVOLUTION

With all the talk about inflation and high food prices, here's one for the record book. Did you know that chicken sells today for only two-thirds what it cost the housewife during the depression of the 1930's? And that's not the kind of stringy chicken mother bought at the local markets then...the modern chicken is plump, meaty and succulent, ranking with "miracle rice" in feeding an over-populated, underfed world.

This "poultry revolution" is the result of research in breeding and feeding which has produced fantastic results. For example, 10 years ago it cost 27 cents to produce a pound of chicken: today costs have been trimmed to around 14 cents. And there's more plump meat and less bone on the modern chicken.

TRAVEL BARGAIN

Speaking of bargains, here's another bargain you couldn't have touched 30 years ago. Tom Bohner's Alpine Travel Service in the Quito Shopping Center has come up with a three-day, two-night Las Vegas week-end for a total cost of $5 per person (plus air fare). Here's what his "package includes: 2 nights at Stardust Hotel, transfers to and from airport-hotel, baggage handling, hors d'oeuvres and drink, a 60 cent Keno ticket, $4.60 on the house coupon book at Circus-Circus Casino, plus Las Vegas club coupon book. What a package!

C-M Pony League holds sign-up Thursday, Jan. 21

Campbell-Moreland Pony League gets the 1971 season off and running with its first registration session Thursday, Jan. 21.

Boys, ages 13 and 14 and residing within the league boundaries, may sign up between 7 and 9:30 p.m. at Coventry School, 1125 W. Campbell Ave.

In addition to registration, the league also plans a sports program and refreshments. Each boy is required to bring a parent and birth date certification. A donation of $15, to defray league expenses, is also expected from each registrant.

Boys who played last season, as well as newcomers, are required to sign up.

DARTING AROUND

with Tom Carroll

During the recent singles tournament finals, the quarter final match between Gary Curtaz (Bull and Bush III, 5024 Geary Blvd., San Francisco) and two time champion Stan Brassey (Mayflower Inn I, 1533 4th St., San Rafael) caused almost as much spectator interest as the final match between Don Rhodes (Lancashire Lad I, 15797 San Jose Ave., Los Gatos) and Tony Chavarria (Courtyard, 72 Southland Mall, Hayward).

Stan started things off with a 92 away coming down fast shooting for the double 20 on his 14th dart. Gary was a little slower coming down but Stan was on the outside with all three darts. On their next time at the board Stan's first dart was high and outside. The second dart was low for a 20. Shooting for the double 10 the third dart was high for a 6, leaving 14. Gary was shooting for the double 10 and hit it on the second dart.

Gary won the second game in 15 darts, getting away with a 40 followed by a ton, a 60 and a 44 leaving 57 for the out. Gary then shot a 17 followed by a ton, a 60 and a 44 leaving 57 for the out. Gary then shot a 17 followed with a double 20 for the win.

HIGH SCHOOL DARTS

On Monday night Campbell High School darters played a team from Leland High School. Due to the mechanical problems of putting out a weekly newspaper the results of that match will not appear until next week. I think that a rousing cheer should be given for Don Howard of Banbury Clock I and Clay Cowden of the Black Knight for fostering this young interest in darts.

LEAGUE PLAY

Gaslighter Theater I still held it's lead in the South Bay League of the Northern California Darts Assn. They defeated Lancashire Lad II eight games to four but Lancashire Lad I dealt a resounding defeat to the Black Knight.

Lad I's 11 game win left them only three games behind Gaslighter I. John Glaze, captain of the Gaslighters, had a high score of 124 (triple 19, triple 16 and a single 19).

Other high scores were Tom Lawrence (121) and John Glaze (114). Tons (100's) were scored by Bill Sprecher, Ben Macredes and Kip Fanjoy of the Gaslighters and by Harry Stephens (2) and Bob Nichols of Lad II.

Banbury Clock II went down in defeat to Banbury Clock I, eight games to four. Gaslighter Theater II succumbed to the Scuttlebutt seven games to five.

Jo Aydelotte of Gaslighter II had a high score of 118. Rich Spelts and Tom Carroll had back to back shutouts against Lynn Quam and Bob Allen of the Scuttlebutt.

MIXED DOUBLES

Don't forget that tonight is the South Bay preliminaries for the Mixed Doubles Championship of the Northern California Darts Assn. Competition starts at 8 p.m. on the stage of the Gaslighter Theater, 400 E. Campbell Ave., Campbell.

The Gaslighter Theater will also host the finals match on February 7.

Judging by the large turnout at the singles and doubles finals, the Association is going to have to hold these matches in theaters, auditoriums or large halls.

Mugs!

DART GAMES TONIGHT (JAN. 13)

Northern California Darts Assn., Mixed Doubles Tournament Preliminaries, 8 p.m. Gaslighter Theater, 400 E. Campbell Ave. Campbell.

DART GAMES NEXT WEDNESDAY (Jan. 20)

Gaslighter Theater II at Gaslighter Theater I, 400 E. Camp- II, upstairs San Jose Inn, 1860 bell Ave., Campbell.

Black Knight at Banbury Clock upstairs San Jose Inn, 1860 The Alameda, San Jose.

Lancashire Lad II at Lancashire Lad I, 15797 San Jose Ave., Los Gatos.

Banbury Clock I at Scuttlebutt, 1100 El Camino Real, Mountain View.

Moreland Bobby Sox holds signup

Moreland Bobby Sox Softball League will have their sign-ups for the 1971 season Jan. 26 and Feb. 17 from 7 p.m. to 9 p.m. at Castro Jr. High School located at 4600 Student Lane, San Jose.

Bobby Sox Softball is for girls between the ages of 8 to 15. Sign-up registration fee is $5.00.

For further information call Connie Gregorio at 257-5639.

Happy Birthday,
Bobbie
